

The Simplex is more than a straight edge. It's a lightweight, portable straight edge mounted with a quality cutting head that features utility knife blades.

For use on a floor or a bench, the Simplex is accurate to within .03" over the full length of the cut and is an economical alternative to the Javelin Series 2 and Sabre Series 2. Full-length silicone rubber grip strips protect and ensure that the material is held securely.

The Simplex uses standard utility blades while also featuring a blade depth adjustment and a spring-loaded blade ejector as standard. The utility blades will cut to a depth of 3/8" (10mm) and the XR blades cut to a depth of 1/2" (13mm).

- Rear loading blade holder for swift replacement; blades will not pull out in heavy material.
- Ultra-fine blade depth adjustment.
- Accurate to within .03" over the full length of the cut.
- 100% made in England.

Textile Cutting Tool
Simplex can also accept an optional 28mm textile cutting wheel.

Item #	Description
69140	28mm textile cutting tool
69141	28mm textile cutting wheels (10)

Item #	Simplex Cut Size	Item #	Blades & Accessories
