

Foster Keencut **EVOLUTION - E2 SERIES**

The Evolution - E2 precision cutter combines all the features and functions wide format printers and sign makers need. It's accurate, easy to use, and can mount onto your existing table.

The heavy duty cutter bar clamps materials securely. Using a Graphix utility blade, it cuts everything from inkjet media and vinyl, to rigid substrates like Sintra, Styrene and Gatorboard up to 1/2" thick. The new cutting head design provides bi-directional cutting with easy interchangeable cutting tools. Flip-over stops on both sides adds horizontal clamping to increase accuracy, prevent slips & reduce cutting time.

The Evolution - E2 mounts directly onto your existing table or work surface. Adjustable levelers ensure straight and accurate cuts to within .008" over the entire length. The lift hold mechanism is operable from both sides. Available in five practical sizes from 64" to 144" and is backed by Foster Keencut's unprecedented 5 year general warranty on all parts (except blades) and a 20 year warranty on the bearings used in the cutting head.

Flip over the cutter bar for full unobstructed bench surface

Textile Cutting Tool:

The Evolution features an attachable textile cutting wheel! When cutting fabrics or other thin materials; the cutter bar can be repositioned over a special textile cutting surface to prevent fraying.

Model #	Item	List Price
69132	45mm Cutting Wheels (10)	\$125

Item#	Cut Size	List Price
60386	64"	\$1,295
60387	84"	\$1,450
60388	104"	\$1,620
60389	124"	\$1,825
60390	144"	\$2,045
69131	Graphix Blades (100)	\$50
